

Dear Mr. Hingtgen,

After reading the article recently printed in Valley Views I felt compelled to voice my strong opposition to the planned Soitec Solar project. Construction of any or all of the four sites under consideration would severely damage the area, negatively impacting the residents, wildlife, water availability, and beauty of this backcountry gem. Also, as you are certainly aware, we live in a fire prone region and these massive panels would create havoc in a wildfire.

Our San Diego County backcountry has already been scarred by the numerous power towers that are such a blight on a once pristine area. Please DO NOT add to the further degradation of our rural communities.

For these reasons, I support the NO PROJECT alternative listed in the Soitec PIER.

Thank you for your consideration in this matter.

Sincerely,

Janine Paulette
